Forecast for Friday 21 Oct 2022

Weather: Cloud quite extensive overnight and through the morning with occasional rain, this most persistent north of Drumnadrochit and Applecross early before gradually dry and occasionally bright conditions develop from the south late morning and through the afternoon. Showers and building cloud feeding from the east through the evening, with some heavier outbreaks possible.

Chance of cloud-free hill tops above 800m: Initially ranging from 10-20% in north and 70% in southwest, becoming for the afternoon 70% generally, lowering for the evening 10-20% in east, 70% in west.

Low cloud and visibility: Good visibility for a few hours during the day for most ranges with low cloud lifting. Becoming poor in rain and showers later, also very poor within cloud with bases quite extensive down to 500m, particularly through the morning in north then in east for the evening.

Met Office Aberdeen Meteorologist's View
Little confidence of extended good conditions, with poorer fare sporadically developing, more readily in north early and east later.

Forecast for Saturday 22 Oct 2022
Weather: Rather cloudy and showery, with outbreaks in east frequent, perhaps heavy at times, with the best of the limited brighter, drier fare expected across western coastal ranges.

Maximum wind: East 15 mph

Chance of cloud-free hill tops above 800m: 60% in west and 30% in east

Low cloud and visibility: Good becoming moderate or poor in showers, also very poor within cloud with bases quite extensive in east, occasional in west, down to 500m.

Temperature: **Glens:** Plus 6 Celsius increasing 15 Celsius
At 800m: Plus 6 Celsius
Freezing level: Above summits
